Conversion and Feeding Instructions

When introducing a new food, begin with a mixture of "old and new" food, gradually increasing the amount of "new" food over a 7-10 day period. This will prevent digestive upset as well as allow your pet to adjust to the new food. Adjust portions for proper weight maintenance and when feeding additional pets. Discard any uneaten food and clean dish before each feeding.

Daily Feeding Amount

Parrots (Perroquet, Ave Loro, Especies, Pirenes) ..... 1/2 Cup (Approx. 140 g)

Allergen information: Contains peanuts and/or tree nuts.

Ingrédients: Graine de tournesol, maïs moulu, gruine de citrouille, gruau d'avoine, carthame, blé, maïs, arachides entières, amandes, blé moulu, fourrages de soja décortiqué, coquille d'huître, arachides décortiquées, papaye séchée, raisins secs, pois cassés verts, millet, farine de gluten de maïs, bananes séchées, sarrasin, haricots Pinto, haricots blancs du Nord, gru blanc de blé, ananas séché, piments rouges séchés, lentilles corail, gruine de lin moulue (source de omega-3), farine de luzerne séchée au soleil, avelines, carotte déshydratée, riz moulu, pistaches, patate douce déshydratée, phosphate dicalcique, carbonate de calcium, avoine moulue, huile de soja, farine de riz, noix de coco séchée, sel, levure déshydratée de brasserie, dextrose, œuf entier séché, L-lysine, malbodextrine, millet mondé, gruine de graminées pour serins, millet, germe de blé, hydrolysat/autolysat de levure déshydratée, pépins de pin, poudre de betterave séchée, supplément de vitamine A, chlorure de choline, huile de soja partiellement hydrogénée, maïs concassé, gruine de tournesol décortiquée, huile de palmier partiellement hydrogénée, huile d'orange, gélatine, extrait de levure, DL-méthionine, mélasse de canne séchée, supplément de vitamine E, mélange de tocophérols (préservatif), sulfate de fer, oxyde de zinc, oxyde manganèse, extrait de romarin, acide citrique, dioxyde de titanium (colorant), complexe de bisulfite sodique de ménadione (source de vitamine K), niacine, extrait de yucca schidigera, sulfate de cuivre, pantothénate de calcium, cholécalciférol (source de vitamine D3), chlorhydrate de pyridoxine, mononitrate de thiamine, acide folique, vanille, iodate de calcium, carbonate de cobalt, biotine, bêta-carotène, carbonate de sodium, produit de fermentation de Bacillus licheniformis séché, produit de fermentation de Bacillus subtilis séché, arôme naturel, FD&C jaune no. 5, FD&C rouge no. 40, FD&C bleu no. 1, FD&C rouge no. 3, FD&C jaune no. 6 laque.

Instructions pour la conversion et l'alimentation

Lorsque vous introduisez un nouvel aliment, commencez avec un mélange d'aliments "anciens et nouveaux", en augmentant progressivement la quantité du nouvel aliment au cours d'une période de 7 à 10 jours. Ceci évitera les problèmes digestifs et permettra à votre animal de compagnie de s'habituer à quelque chose de nouveau. Adapter les portions pour un maintien de poids approprié et en cas d'alimentation d'animaux supplémentaires. Jeter tout aliment non consommé et nettoyer le contenant avant chaque distribution d'aliments.

Quantité de nourriture quotidienne

Perroquet (Perroquet, Ave de Loro, Especies, Pirenes) ..... 1/2 gobelet (Approximativement 140 g)

Information sur les risques d'allergie: Contient des arachides et (ou) des noix

Análisis garantizado

Proteína cruda (mín.)	14.5%	Ácidos grasos omega-3 (mín.)	0.4%
Fibra cruda (máx.)	11.0%	Total de especies de bacilos (mín.)	75,000 CFU/g

Ingredientes: Semillas de girasol, maíz molido, semillas de calabaza, avena molida grueso, carthamo, trigo, maíz, maní entero, almendras, trigo molido, harina de soya sin cáscara, concha de ostra, maní con cáscara, papaya seca, ciruelas, arvejas verdes, sorgo, harina de maíz con gluten, zoltanna secos, frijol rubión, frijoles pintos, judías blancas del norte, frijol molido medianos, piña seca, pimientos rojos secos, lentejas rojas, semilla de lino molida (fuente de omega-3), harina de alfalfa cuajada al sol, avellanas, zanahoria deshidratada, arroz molido, pistachos, tomates deshidratados, frutales dicálcicos, carbonato de calcio, avena molida, aceite de soya, harina de arroz, coco seco, sal, levadura de cervecería seca, dextrosa, huevo entero seco, L-lisina, malbodextrina más sin cáscaras, semillas de alcaraz, mijo, harina de germen de trigo, hidrolizado de levadura, manzana deshidratada, cebolla deshidratada, harina de fibra de guisante, suplemento de vitamina A, cloruro de colina, aceite de soya parcialmente hidrogenado, maíz quebrado, semillas de girasol sin cáscara, aceite de palma parcialmente hidrogenado, aceite de naranja, gelatina, extracto de levadura, DL-metionina, melaza de caña seca, suplemento de vitamina E, suplemento de vitamina B12, suplemento de riboflavina, miel, suero en polvo reducido en lactosa, semillas de ajonjolí, semillas de lino, canela, yogurt seco en polvo, tocoferoles mezclados (un conservante), sulfato ferroso, óxido de cinc, óxido manganoso, extracto de caléndula, aceite cítrico, dióxido de titanio (color), complejo de bisulfito de sodio de menadiona (fuente de actividad de vitamina K), niacina, extracto de yucca schidigera, pantotenato de calcio, colecalciferol (fuente de vitamina D3), hidrocloruro de piridoxina, mononitrato de tiamina, ácido fólico, vainilla, yodato de calcio, carbonato de cobalto, biotina, beta-caroteno, carbonato de sodio, producto seco de fermentación de bacillus licheniformis, producto seco de fermentación de bacillus subtilis, sabor natural, FD&C amarillo N° 5, FD&C rojo N° 40, FD&C azul N° 1, FD&C rojo N° 3, FD&C amarillo N° 6 laca.

Conversión e instrucciones para la alimentación

Cuando ofrezca un nuevo alimento, comience con una mezcla de alimentos "nuevos y viejos", aumentando gradualmente la cantidad del nuevo alimento en un período de 7 a 10 días. Esto evitará molestias digestivas y también le permitirá a su mascota acostumbrarse a algo nuevo. Ajuste las porciones para el mantenimiento del peso adecuado y cuando alimente a más mascotas. Deseche el alimento que no se haya consumido y limpie el plato antes de servir cada ración de alimento.

Cantidad de alimento por día

Loro (Perroquet, Loro, Ave de Loro, Especies, Pirenes) ..... 1/2 taza (Aproximadamente 140 g)

Información sobre alérgenos: Contiene cacahuetes y/o otras nueces.

Storage Instructions: A naturally preserved product needs special attention to maintain maximum freshness. After opening bag, remove air and reseal tightly. Use the food within 30-45 days. Store in a cool, dry location. Refrigerate or freeze for extended storage.

Satisfaction Guarantee: If you are not completely satisfied, simply return the unused portion with cash register receipt to:
