TIMOTHY HEARTY HAY

From the Field to your Home...

At Kaytee we believe quality starts from the ground up. Naturally grown without pesticides, our farmers grow hay specifically for small pets. The way hay is grown, harvested, and stored can determine the nutritional value for your small pet.

Kaytee® Hearty Hay is grown in fertile farmland graced with abundant sunlight and nourished with rocky mountain water. Kaytee® Hearty Hay is cut from the first harvest which yields a robust, crisp and nutritious crop. The first harvest has long fibrous stems, fewer leaves, and more flower heads making it perfect for the small animal that prefers the crunch. Kaytee® Hearty Hay supports digestive and dental health and provides the nutrition your Rabbit, Guinea Pig or other small animal desires and the quality you expect. At Kaytee, we are committed to harvesting the best nature has to offer.
