Conversion and Feeding Instructions

When introducing a new food, begin with a mixture of "old and new" food, gradually increasing the amount of new food over a 7 to 10 day period. This will prevent digestive upset as well as allow your pet to adjust to the new food. Adjust portions for proper weight maintenance and when feeding additional pets. Discard any uneaten food and clean dish before each feeding.

Daily Feeding Amount

Small Rabbit Breeds	1/4 to 1/2 Cup
Large Rabbit Breeds	1/2 to 1 Cup

Allergen Information: Manufactured in a facility that processes peanuts and/or tree nuts.
