Skin Contact: Wash skin with soap and water. Seek medical attention if irritation develops.

Eye Contact: Immediately flush eyes with large quantities of water for 20 minutes, holding the eyelids apart. Get immediate medical attention.

Ingestion: Do not induce vomiting unless directed to by a doctor or physician. If the victim is fully conscious, have them rinse their mouth with water. Get medical assistance by calling a doctor or poison center. Never give anything by mouth to a person who is unconscious or drowsy.

Most Important Symptoms: Causes severe eye irritation with possible damage.

Indication of Immediate Medical Attention/Special Treatment: Immediate medical attention is required for eye contact.

5. Firefighting Measures

Suitable (and Unsuitable) Extinguishing Media: Non-Flammable. Use any media that is suitable for the surrounding fire. Cool fire exposed containers with water.

Specific Hazards Arising From the Chemical: Closed containers may rupture if exposed to extreme heat. May release oxides of nitrogen in fire conditions. Product may act as an oxidizer if allowed to dry out.

Special Fire Fighting Procedures: Firefighters should wear positive pressure self-contained breathing apparatus and full protective clothing for fires in areas where chemicals are used or stored.

6: Accidental Release Measures

Personal Precautions, Protective Equipment, and Emergency Procedures: Prevent contact with eyes. Avoid contact with skin and clothing. Wear appropriate protective clothing and equipment as described in Section 8. Ventilate the area. Remove sources of ignition. Keep combustible materials away from spills if safe and easy to do so.

Methods and Materials for Containment / Cleanup: Absorb with an inert material. Collect into a suitable container for disposal. Rinse area with water. Prevent entry in storm sewers and waterways. Report spill as required by local and national regulations.

7. Handling and Storage

Precautions for Safe Handling: Prevent contact with eyes. Avoid contact with skin and clothing. Use only with appropriate protective equipment. Wash hands after use.

Conditions for Safe Storage, Including Any Incompatibilities:

Protect containers from physical damage. Store in a cool, well-ventilated area away from strong oxidizers, strong bases, and combustible materials. Keep out of the reach of children.

8. Exposure Controls / Personal Protection

Exposure Guidelines:

CHEMICAL	EXPOSURE LIMIT	
Calcium Nitrate	None Established	

Appropriate Engineering Controls: General ventilation should be adequate for normal use.

Personal Protective Equipment

Respiratory Protection: None required under normal use conditions. If exposures are excessive, wear an approved respirator. Selection of respiratory protection depends on the contaminant type, form and concentration. Select and use in accordance with all applicable regulations (in the US follow OSHA 1910.134) and good Industrial Hygiene practice.

Gloves: Protective gloves recommended to avoid skin contact.

Eye Protection: Wear chemical goggles.

Other Protective Equipment/Clothing: Appropriate protective clothing as needed to minimize skin contact.
