

KAYTEE

WILD BIRD FOOD

Southern

Regional Blend™

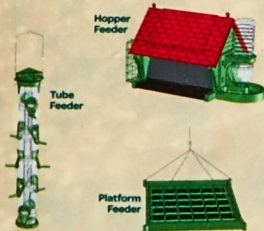

**Attracts
MORE
Birds!**Specially Blended for Cardinals, Woodpeckers,
Finches, Chickadees, Jays & More

KAYTEE® Southern Regional Blend™ attracts more backyard birds*. The science behind this extraordinary mix is based on the seed preferences and visual perception of songbirds typically found in the Southern United States. Our regional seed blends have been independently field tested by researchers at leading universities and proven to attract more birds than either black oil sunflower seed or other non-regional blends.

*Based on results of field tests of KAYTEE® Southern Regional Blend™ against black oil sunflower seed and other, non-regional blends. Individual results will vary due to local environmental factors including bird migration and distribution, terrain, landscaping and weather.

FEEDING HINTS:

- Keep feeders filled year-round; birds stay near reliable sources of food
- Provide a source of fresh water
- Place feeders near trees or shrubs for cover and security
- Clean feeders regularly to minimize mold and bacteria

SUGGESTED FEEDERS:**GUARANTEED ANALYSIS:**

Crude Protein (min.) _____ 15.5% Crude Fiber (max.) _____ 16.0%
 Crude Fat (min.) _____ 33.5% Moisture (max.) _____ 12.0%

INGREDIENTS:

Sunflower Hearts & Chips, Red Millet, Oil Sunflower, Golden Safflower, Peanut Hearts, White Millet, Safflower.

Allergen information: Contains peanuts and/or other tree nuts.

STORAGE INSTRUCTIONS:

Reseal package preferably in a closed container and store in a cool, dry place, away from food items. This will help protect against insect infestation that can naturally occur with any whole grain seed product.

SATISFACTION GUARANTEE:

If you are not completely satisfied, simply return with cash register receipt to:
