Platies, Guppies,  
Mollies, Saltwater  
Angels and Tangs.*

**FISH FOOD FLAKES**  
**For Everyday Feeding**

Net Wt. .5 oz (14.2 g)

### WHAT IS SPIRULINA?

SPIRULINA is a blue-green plant plankton rich in raw protein and seven major vitamins: A1, B1, B2, B6, B12, C and E. It naturally contains beta carotene, color-enhancing pigments, and a whole range of minerals. In addition, it contains all essential fatty acids and the eight amino acids required for complete nutrition.

### WHAT CAN SPIRULINA 20 DO FOR YOUR FISH?

SPIRULINA 20 flakes contain a full 20% Spirulina and provide a complete high protein diet for freshwater fish, marine fish, goldfish, crustaceans and invertebrates. SPIRULINA 20 is a particularly ideal food for the vegetative dietary needs of all AFRICAN CICHLIDS, live bearers such as SWORDTAILS, PLATIES, GUPPIES and MOLLIES, in addition to SALTWATER ANGELS and TANGS.

Research has shown that fresh and saltwater fish exhibit superior growth, maturity, energetic behavior, and more elegant coloring when fed SPIRULINA. It is also well documented that Spirulina improves egg production and hatching rates, stimulates the reproductive processes, increases survival rates of younger fish, and arouses the appetite of fish. You'll see an amazing difference when you feed SPIRULINA 20!
