WILDLIFE FOOD

Diverts  
Squirrels  
from  
Bird Feeders

## Backyard Wildlife Blend

Blend

Special blend of favorite foods for Squirrels,  
Chipmunks, Rabbits and Other Backyard Wildlife

### Kaytee® Backyard Wildlife Blend

For the true nature lover, Kaytee® Backyard Wildlife is formulated with ingredients designed to attract a wide variety of small animals to your backyard. It provides a tasty and well-balanced food that offers the animals' favorite ingredients to supplement their natural diets.

Kaytee® Backyard Wildlife food also distracts small animals away from your bird feeders. Many birders experience frustration with squirrels and other animals that cause a disruption or have destructive behavior at feeders. Keeping this food available at a distance from feeders will provide these animals with great diversion, allowing you to enjoy all the animals in your backyard.

### FEEDING HINTS:

Kaytee® Backyard Wildlife is an excellent food source for squirrels, chipmunks, rabbits, raccoons, deer, geese, pheasants, ducks, turkeys and other backyard wildlife. Squirrels can often times be disruptive to birds that eat at feeders. If you want to help keep squirrels and other animals away from your bird feeders, place Kaytee® Backyard Wildlife a distance away from all bird feeders.

Provide food year-round in:

- Squirrel Feeders
- Platform Feeders
- Tray Feeders

### STORAGE INSTRUCTIONS:

Reseal package and store in a cool dry place, preferably in a sealed container. This will protect against insect infestation that can naturally occur with any whole grain seed product.

### SATISFACTION GUARANTEE:

If you are not completely satisfied, simply return the unused portion with cash register receipt to KAYTEE Guarantee  
521 Clay Street, Chilton, WI 53014
