Jobes®

FERTILIZER SPIKES

JOBES® SPIKES FEED AT THE ROOTS

Jobes® Fertilizer Spikes are specially designed to feed all varieties of houseplants where they need it most, at the roots. Unlike other types of fertilizers, Jobes spikes are pre-measured, giving your plants just the right dosage of nutrients so you won't overfeed or burn them. And, by feeding underground, away from the soil surface, Jobes's slow release formula prevents waste and chemical runoff.

IMPORTANT: Read directions before applying.
KEEP OUT OF REACH OF CHILDREN AND PETS.
Store in a cool, dry place and use soon after opening.

DIRECTIONS

For best results, insert new spikes every 60 days.

Just push each spike into the soil around the plant, halfway between the plant stem and the edge of the pot, until the spike is just below the surface.

The nutrients are gradually released to the plant's roots, safely and continuously, every day.

Water after inserting spikes.

GUARANTEED ANALYSIS

Total Nitrogen (N)* 13%
 2% Nitrate Nitrogen
 2% Urea Nitrogen
 2% Other Water Soluble Nitrogen**
 7% Water Insoluble Nitrogen
 Available Phosphate (P₂O₅)* 4%
 Soluble Potash (K₂O)* 5%

DERIVED FROM:

Ureaform, Triple Superphosphate, Potassium Nitrate.
 Chlorine (Cl) not more than 0.2%

*The nitrogen, phosphate and potash materials in this product provide 8.5% occluded slow release nitrogen (N), 3.7% occluded slow release available phosphate (P₂O₅), and 1.1% occluded slow release soluble potash (K₂O).

**2% Slowly Available Nitrogen from Ureaform.

Jobes Fertilizer Spikes for houseplants are great for philodendrons, peace lilies, zebra plants, dieffenbachia and other non-blooming houseplants.
