### DENTAL FLEXI CHEW® CHICKEN FLAVORED BONE

Recommended for dogs up to 15 lbs / 7 kg

- It's important to select the proper size & type of chew for your dog's age, weight & chewing strength. Non-edible chews should be large enough to encourage chewing from the side rather than top and bottom. If you have more than one dog in your household, select chews appropriate for the largest, strongest chewer. Not intended for powerful chewers. Powerful chewers may need Nylabone® Dura Chew® toys.
- Always supervise the use of all chews & toys.
- Product is not intended to be eaten or ingested. During normal chewing, small bristle-like projections will be raised, which help clean teeth. If you think your dog swallowed a large piece, take the product away and contact your veterinarian.
- Inspect before giving to your dog to make sure it's whole and intact. Check frequently & replace if damaged, ends are worn down or if it becomes too small to chew safely.
- Hand wash with warm soapy water & rinse thoroughly.

### HEALTHY EDIBLES® BACON FLAVORED BONE

**Feeding Instructions:** For puppies up to 15 lbs, feed up to one Petite size chew per day. Be sure your puppy has access to plenty of fresh water. This is a natural product; product colors may vary. Natural color may stain light-colored surfaces. Supervise the use of all edible chews to ensure that your puppy does not bite off pieces too large to swallow. These chews are recommended for puppies with all their permanent teeth (usually around 6 months). Always consult your veterinarian before introducing new foods/treats to your puppy. Feed as a treat. This product is not intended to be fed as a meal.
