

ZILLA[®]

REP YOURSELF[™]

CRICKET GLOW POWDER

Instructions: Shake Glow Powder over top of insects in holding container. Gently shake holding container to distribute powder evenly. Add enough to coat insects thoroughly and evenly. Add insects to habitat. For Best Results, turn off all but black lights to make insects fluoresce brighter. High humidity causes Glow Powder to hydrate and lose glowing effect quickly. Best used in low humidity environments.

Ingredient list: Calcium Gluconate, Calcium Carbonate, Calcium Ascorbate Dihydrate, Calcium Bentonite, Artificial Color
