

GIANT ORIGINAL BANQUET®

TIME RELEASE FEEDING BLOCK LASTS TEN TO FOURTEEN DAYS.

INSTRUCTIONS:

Place the time release food block in your aquarium. Multiple food blocks can be positioned across aquarium floor to allow for territorially aggressive fish. One **Giant Original Banquet®** food block will feed approximately 15-20 average sized aquarium fish for 10-14 days (Ask your dealer about **Mini Original Banquet®** and **Regular Original Banquet®** for shorter automatic feeding period needs). Do not use this product in fish bowls or aquariums which do not have aeration or filtration. **Giant Original Banquet®** will not cloud water.

APPLICATIONS:

In addition to weekend and vacation feeding, **Giant Original Banquet®** is very useful as a daily feeder for problem eaters such as Plecostomus, Algae Eaters, Redtail Sharks, Black Sharks, Gouramis, Saltwater Tangs, Angels and Damsels. It is also very useful for small fry which do best when constantly feeding.

GUARANTEED ANALYSIS:

Crude Protein (min)...5.0%; Crude Fat (min)...0.25%; Crude Fiber (max)...1.5%;
Moisture (max)...18.0%
