

DO YOU LIVE IN A FIRE ANT STATE?

TAKE CONTROL with the **TWO-STEP METHOD**

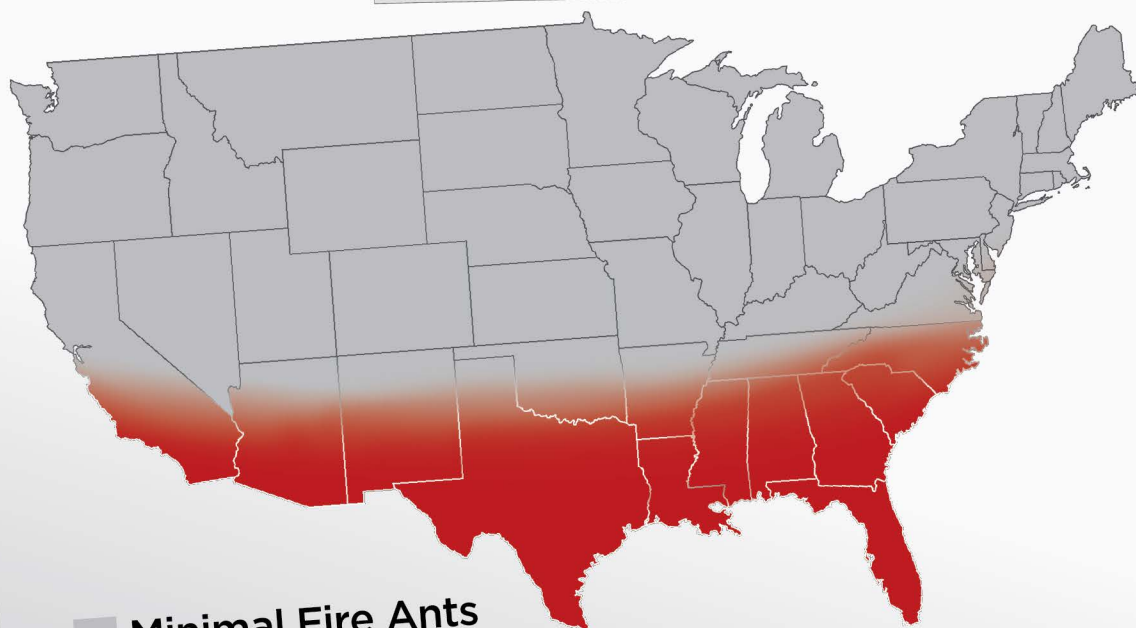

STEP ONE

Spread AMDRO®
Kills Fire Ants Yard
Treatment Bait
over your entire
lawn for season
long fire ant control

STEP TWO

For mounds that
pop up later, treat
them with AMDRO®
Fire Ant Bait

- Minimal Fire Ants
- Moderate Fire Ant Activity
- Dense Fire Ant Populations

Fire ant treatments,
including the Two-Step
Method, are most effective
when ants are active.

Seasonal activity peaks from
spring through fall, when soil
temperatures are 60°F or
higher. Begin your Two-Step
attack in early morning or
early evening when ants are
actively foraging.

AMDRO

Kills Fire Ants
YARD TREATMENT BAIT

ANTS EAT THE BAIT**

THE QUEEN DIES

4

Kills Fire Ants

YARD TREATMENT BAIT

KILLS THESE ANT SPECIES

FIRE ANTS

BIGHEADED ANTS

HARVESTER ANTS

Hundreds of thousands of fire ants, including the queen, live in underground tunnels beneath the mound. Bait kills fire ants above and below ground.

VISIBLE MOUND

HIDDEN MOUND

DEPTH OF UP TO 10 FT.

**EXTEND UP TO 30 FT.
AWAY FROM MOUND**
