## Foal-Lac<sup>®</sup> Pellets

### *Equine Milk Supplement*

Foal-Lac Pellets offer:

- Balanced protein and other essential nutrients for growth in foals. As a supplement to the foal's creep ration. Foal-Lac Pellets provide milk nutrients to nursing foals at a time when its mare's milk declines in quantity and quality. Foal-Lac Pellets has been a valuable supplement for mares and foals for over 30 years.
- Milk based formula.
- Highly palatable. Foals eat the pellets readily.
- Balanced calcium:phosphorus ratio.
- Pelleted.
- Provides easily digested milk protein and nutrients.
- Easily mixed into the foal's ration, no waste.
- Aids in transition from milk to grain ration.

**INDICATIONS FOR USE:** For early weaned foals, and for nursing foals before and during weaning. Excellent supplement for gestating/lactating broodmares and breeding stallions.

### **DIRECTIONS FOR USE:**

Foals – Feed up to 6 cups daily, mixed into 16% protein foal feed.

Weanlings/Yearlings – Supplement 14% protein grain ration with 1 – 3 cups, depending on condition.

Broodmares – Supplement ration with 1 – 3 cups, depending on condition during the last 3 months of gestation. Supplement ration with 3 – 6 cups daily during lactation.

Breeding Stallions – Supplement ration with 1 – 3 cups daily during breeding season.

Performance Horses – Supplement ration with 1 – 3 cups daily.

Store in cool, dry place.
